

I live in a rural area with limited broadcast services and satellite radio provides variety and quality that are not available to me any other way. I pay for these services and it is ridiculous that the NAB decide what I can listen to and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
